Beginning this Friday and through the rest of the year, customers can get a free order of medium fries with any purchase worth at least \$1. All you need to do is download the McDonald's app and make an account.

Through the app, users will be prompted to take advantage of the offer on Fridays. It can also be found in the deals tab. Only one deal can be used at a time. Customers will be asked to pay and then pick up how they want either curbside or drive-thru.

This is the fast food chain's latest attempt to get more people using its app. Users also get a free 10-piece McNuggets entree with their first app order at a minimum of \$1.
